RE: Data Engineer for hire

Dear Recruiter,

Having recently finished a 1.7 year in Data and Platform Engineering after completing my Bachelor of Engineering in Computer and information System, I am ready to start the next chapter in my life. So, I was thrilled when I came across your job post in search of Data Engineering candidates in software engineering. With both my educational and professional background in the entire software dev life cycle, I believe I have what it takes to be the perfect choice for Data and Platform Engineer

Throughout the course of my career, I have perfected my data analysis and Platform Building abilities. I am a capable and consistent problem-solver skilled at prioritizing and managing projects with proficiency.

As a Data Analytics and Platform Engineer focusing on delivering top results in systems and Platform, I know I have what it takes to be an impressive performer at Data domain. Skilled with both Platform building and data analytics, my skill set is diverse and complementary. At my previous position, several of my wins include:

Please review my attached resume for more details on the following qualifications:

- Designing of Data warehouses and big data lakes
- Platform Designing and its implementation using cutting edge technology such as Elastic Map Reduce - Hadoop, Apache Hudi, Apache Arvo, Apache Kafka, Apache Flink, Apache Airflow, Apache Superset, PySpark, MySQL, Hive, HBase, Trino, Cassandra, MongoDB, Spark Streaming, Terraform, Helm, Kubernetes, CI Pipelines, AWS and its most of the services, Scala, Java, C++, JavaScript, Singer, Numpy, Pandas, Sea-born

Please take a moment to review my attached resume and credentials. I would greatly appreciate the opportunity to speak with you regarding my candidacy.

Sincerely,
Syeda Marium Faheem
